

Reflection Worksheet: After Implementing a Sustainable Practice

This worksheet is designed to help your school reflect on the implementation of a sustainable practice. It supports learning from experience, identifying strengths and challenges, and planning for future improvements or scaling. Please complete this reflection after the practice has been carried out. You can use it individually or as a team.

Practice title:

Date of implementation: From

to

What went well?

What worked best?

What positive changes did we observe?

What did we learn?

What new competencies were developed?

What did we learn about our readiness for sustainability?

What would we do differently next time?

What challenges did we face?

What could be improved?

Would we repeat or scale this practice?

Yes

No

Maybe

If yes, how?

How will we ensure the sustainability of this practice?

How will we maintain the relevance of this practice?

Who will be responsible for its ongoing implementation?

What support or resources will be needed to sustain it?
